Adding fractions with the same denominator worksheet year ${\bf 3}$

I'm not robot!

In this lesson, we will be using wer knowledge of addition to add fractions with the same denominator. We will use lots of different pictures of fractions, and Tape DiagramsProblems, Fractions, and Tape DiagramsStudents will follow the four steps explained in this worksheet, then practice solving mixed number addition problems using tape diagrams. I currently work at the top end of Primary school in Year 5/6. I create resources people require. Last updated 22 February 2018 A lesson made looking at adding and subtracting fractions with the same denominator. Included is a PowerPoint with L.O and S.C as well as examples to work through. This includes a practice sheet that children can work through for the questions on the board. Also included are a set of three differentiated worksheets that work on adding and subtracting fractions with the same denominator for Year 4 children. These have all been made with mastery in mind and so follow this pattern. Worksheet One - Works on practise and fluency (LA) Worksheet Two - Practise, fluency, reasoning and problem solving (HA) Answers are included. This has been made for children in either Year 3 or 4.
